

Information for SAG Artists re: submitting art for placement on website

The member-artists listed on the SAG website Artists page are those who have submitted the appropriate info to the webmaster at vistapat@att.net, and have paid the appropriate fees.

There is a one time set up charge of \$10, which includes (on the Artists' page) the listing of the artist's name, (and if desired) phone, email, web address, list of media worked with, and one small image, and a link to a separate page featuring that artist's work.

There is a fee of \$3 per image for each image loaded to the website.

Example: If you have only one image on the website, your charge would be \$10 + \$3 = \$13.

If you had three images on the website, your charge would be \$10 + \$9 = \$19.

Payment should be remitted to Frank Leimbek, SAG Treasurer. (2046 Winsome Way, Encinitas, CA 92024)

Frank Leimbek is willing to take two photos (without charge) of your art to place on this website.

Frank will prepare those photos so that they are the proper size and title for the website, and he will send them to me.

If you want Frank to photograph more of your art pieces, more photos and computer processing will be done at \$30 per hour.

If you already have digital images of your artwork, please send **your images to Frank in .jpeg format** (that you wish to represent your artwork on the website). Frankl01@sbcglobal.net

The enlarged images are 6" high at 72 dpi. If your images are larger, we can make them smaller; but if they are smaller, we can't make them bigger and have them look good.

The format I use for filenames is first initial last name-art_work_title.jpg

For example Frank Leimbek's photo titled "Big Leaf Maples" would be set with a filename of: fleimbek-big_leaf_maples.jpg

If you already have your own website, please **send the URL**. If you have your own website, I can copy an image from your website to SAG site (if that is your preference).

You need to tell me what image to copy and place on the Artists page.

If you want your **bio** information on your page, please send that to me.

I usually select all the text, copy, and paste into the web page; thus the text should be in a format that I can copy, such as the body of an email or in a Word doc.

Don't forget to **list all media you work with**.

Please tell me whether or not you want your **email address** listed, and include your **phone number** if you want it published.

If you do not want your real email address used on this public website, I think I can change it to yourname@sargart.com and set it up to automatically forward email sent to that address to your real email address.

--Pat Boyd, Webmaster
